QUALITY. COURTESY. SERVICE.

The Spirit of Friendship.

This store looks upon its patrons not merely as customers but as friends. People purchase here because they have friendly feeling for this store.

The cause which develops this friendly feeling, may differ, in fact, they are sure to differ. One's friendship for the store is the result of finding good values; another's is the result of efficient service and courteous treatment, and so on.

Naturally this friendly feeling on the part of our patrons is reciprocated on our part. And this spirit of mutual friendship is an impetus for greater service and an incentive to ever-increasing endeavor to make this store a place where every visitor will feel perfectly at home.

Steps were taken by the state board of education at a special session yesterday which will assure the filling of some 65 vacancies in the state, caused by the inability of school boards to secure properly qualified teachers.

Governor Campbell has issued a proclamation designating Sunday, October 5th, as "Americanization Day." The people are invited to hold public meetings; churches are asked to devote at least one service to the discussion of the Americanizing of foreigners within our borders.

Within the past week fifteen thousand doses of Aggressin permanent immunity blackleg vaccine have been sent from Arizona to three cattle outfits in Sonora, Mexico. This indicates that some of the big cattle outfits of northern Mexico are using up-to-date measures in preventing disease.

Inspector of Customs J. S. Kelly has seized 3500 head of cattle on the land of L. A. Glenn at Silver Creek, on the ground that the cattle had been smuggled across the international line from Mexico. The federal officers are making a close investigation of the matter and one of them stated that sensational developments might come to light at any hour.

Ed. W. Stephens, secretary of the livestock sanitary board, has a big job on his hands re-recording the 20,000 cattle brands, many of which have become obsolete. Already more than 3000 applications for re-recording have been received. The legislature appropriated \$4375 with which to do the work. This fund is nearly exhausted although the work is only well started.—Cattleman.

The Pima county bond issue was passed recently by an overwhelming vote on the figures of the five Tucson precincts alone. If the vote is sustained throughout the county, the decision to issue \$1,500,000 worth of bonds for good roads throughout the county was reached by a vote of 603 for the bond issue to 105 against issuing the bonds. The total vote cast in the five precincts of Tucson was only 708, showing there was practically no opposition.

The location of oil claims has extended from the Whetstone mountains, where the San Pedro Oil & Gas company have control of 12,000 acres, to the border. Claims are now located on the west side of the Huachuca from the San Rafael grant east along the border, and it is reported in the vicinity, that a company is preparing to drill in the vicinity of the head of the Jacquin Creek. There is said to be considerable locating south of the Canille mountains.

Dean G. M. Butler, of the college of mines and engineering, has men enrolled in his department who came from many different states and colleges. The states represented are as follows: California 7; Texas 6; Illinois 4; New York 3; Michigan 3; Oregon 3; Colorado 2; and one each from Washington, Ohio, Kentucky, New Mexico, Georgia, Alabama, Tennessee, South Dakota, Wyoming, Pennsylvania, Iowa and North Carolina. One man from China has registered.

Senor Cubillas, of the Sonora Bank and Trust Co., Nogales, and Senores Fuente and Bringas of Sonora, Mexico, were up last Sunday on a tour of inspection of the San Pedro Patagonian, of last week. These gentlemen, says the paper, were much impressed with what they saw and learned, and went away with unshaken faith in the strong oil indications found, and with no misgivings as to the final success of this latest and greatest new enterprise of the Southwest. It is said Sonora capitalists are to become heavy investors in the stock of the new company.

RANGES IN EXCELLENT SHAPE.

A recent report from Phoenix says: Moderate showers have fallen in the Grand Canyon district, also in eastern Arizona and New Mexico. Ranges continue in excellent condition, generally covered with an abundance of forage of various types. Immediately north of the Rim in Navajo county pastures have matured to a considerable degree, particularly the lighter grasses. Conditions in the Fort Apache Indian reservation continue excellent and very good in the San Carlos reservation. That all classes of stock are approaching the dry season under the most favorable circumstances is reported by practically all correspondents. From the border sections it is stated that cattle pastured in Sonora during the summer are returning to their home ranges in fine condition. Roundups are progressing in a number of places.

Where soil conditions have been favorable nearly all crops outside of irrigated sections are reaching maturity or being harvested. Where crop failure has occurred this season it has been the result of very poor soil or lack of cultivation. Wheat and

oats harvest is progressing in dryland sections with good yields in prospect. In nearly all parts of the state corn, milo maize, kafir and cane are making the best showing in years. The potato crop in the Flagstaff section may be reduced considerably as a result of blight said to have affected a number of fields. It is not possible to estimate the amount of damage this early. Favorable weather has enabled the cotton crop again to approximate a normal condition and picking has gone forward the past week without interruption.
